

## Our Application Form

Our simple online application form typically asks for the following:

**An outline of the issue in the UK you are trying to address** including,

- details of the issue
- work already underway in the UK to address the issue
- and any relevant personal and professional experience you have in this area.

**What you hope to learn from the countries you are researching** including,

- why you have chosen these countries
- why you believe they offer solutions to the issue you want to solve
- why and how your proposed research will help change practice in the UK.

**How you plan to make change in the UK after your Fellowship** including,

- how you plan to share or implement your findings, what the benefits will be for the UK.

**You will not be asked to submit a budget unless you are invited for interview.**

The application form will be made available on our website when we open for applications. If you need support with completing a written application form due to, for example, a disability or mental health problems, please contact us as soon as possible to discuss your needs.
