citizens regardless of
qualifications,
background or age

Fellowships can cover
any aspect of UK society,
see our website for other
themes

Fellow Jem Stein (left) researched ways to create large-scale social enterprises

Have you ever wanted to make change happen in an issue you care passionately about? Explore new solutions with the world's leading professionals? A Churchill Fellowship is a once-in-a-lifetime opportunity to lead the change you want to see.

We will fund you to spend up to two months learning from the innovators in your field anywhere in the world, in person or online. Then we will help you to share your ideas and inspire change across the UK.

In September 2025 we will open for applications for Fellowships in a series of topical themes that range across the whole of society, including culture, community, economy, education, environment, public provision, health, science and more. The topic you explore is proposed by you and success is defined in your own terms.

We are looking for people with the passion and potential to make a real difference to their community or sector. We are offering a life-changing opportunity.
