Inspire the change you want to see for palliative and end of life care

Have you ever wanted to make change happen in an issue you care passionately about? Explore new solutions with the world’s leading professionals? A Churchill Fellowship is a once-in-a-lifetime opportunity to lead the change you want to see.

We will fund you to spend up to two months learning from the innovators in your field anywhere in the world, in person or online. Then we will help you to share your ideas and inspire change across the UK.

In September 2022 we will open for applications for Fellowships in our theme Palliative and end of life care. We will be seeking applications that focus on improving palliative and end-of-life care, particularly for less common life-threatening conditions. We are interested in projects that relate to a wide range of professionals and carers, to medicine and other practice areas, to relevant legal and ethical issues, or integration with other fields.
